

## GDC Services Access via PDA

### Installation Instructions

## Installation Instructions

Before installation, ensure the following steps have been taken:

1. Your PDA has a connection to a PC or Laptop, or has wireless connectivity to the Internet.
2. Your device's Outlook email client is configured and can send emails using either ActiveSync or MSFP.

To install while docked with a PC:

1. Download the Microsoft .NET Compact Framework 2.0 to your PC.
  - Open a browser and go to:  
<http://www.microsoft.com/downloads/details.aspx?FamilyID=9655156b-356b-4a2c-857c-e62f50ae9a55&displaylang=en>
  - Click the "Download" selection box, and then choose to save the program to disk, preferably to your desktop.
  - Once the file download is complete, double-click the program icon named "NETCFSetupv2.msi and follow the installation instructions. Make sure you choose the "Complete" installation.
  - Once the .NET framework is installed on your PC, it should automatically install itself on your PDA. Your device will reset once the installation is complete.
2. Download the FlowFinity forms software and install it on your device.
  - Open a browser and go to:  
<http://www.mygdc.com/static/pda>
  - On the webpage that appears, right-click the download link and select "Save link as" from the menu. Choose a location you will remember and select "Save" to save the form installer.

- Once the program has been saved to your hard drive, double-click on the ActiveSync icon in your computer's system tray. This will bring up the ActiveSync program.
- In the ActiveSync menu, choose "Tools", then "Explore Pocket PC". This will bring up the filesystem on your device. Now, copy the HoneywellGDC\_PocketPC.cab file that you downloaded earlier to this directory.
- On your PDA device, select "Start", then "File Explorer". From the dropdown menu at the top of the screen, select "My Documents". You should see the file you just copied displayed there.
- Double-click the file, and it will install itself. You may now access the program via "Start", "Programs", "Honeywell GDC".

#### To install via wireless connection:

1. Install the Microsoft .NET Compact Framework to your PDA, using the method described above.
2. Open a browser and go to:  
[http://www.mygdc.com/static/pda/HoneywellGDC\\_PocketPC.cab](http://www.mygdc.com/static/pda/HoneywellGDC_PocketPC.cab)
3. Once the file has downloaded to your device, select "Start", then "File Explorer". From the dropdown menu at the top of the screen, select "My Documents". You should see the file you just copied displayed there. Double-click the file and the application will install.
4. You may now access the program via "Start", "Programs", "Honeywell GDC".
